environment part and whole structure and process science and politics

The Dialectical Biologist – New Politics
January 22nd, 2012 - In a famous paper written with his Harvard colleague and fellow
dialectical biologist Richard Lewontin Gould argued that many features of organisms are
the result of structural constraints rather than adaptive advantage — accidental byproducts
of evolutionary change brought about because natural selection acts on existing structures

**Dialectical biology Revolvy**

July 27th, 2017 - In *The Dialectical Biologist* Richard Levins and Richard Lewontin sketch a dialectical approach to biology. They see dialectics more as a set of questions to ask about biological research, a weapon against dogmatism than as a set of pre-determined answers. They focus on the dialectical relationship between the whole or totality and the parts.
